Title of scholarly paper enclosed:

Teaching experience:

Referees (please include name, institution, email and phone # of three
referees):

1. What is the substantive or procedural problem or problems in the world that your research seeks to address? (e.g. environmental degradation, interest group capture, corruption, unequal representation, inequality).

2. Please describe the solution or approach to addressing this problem that your research seeks to understand (250 words max).

3. Please describe the main bodies of scholarship to which your research contributes (e.g. regulatory theory, deliberation in democratic theory, theories of the policy process).

4. Please describe the research activities that you will pursue during your year at the Ash Center if you become a Democracy Fellow (1000 words max).
